

Stone Quarry Machinery- Horizontal Core Drilling Machine

Electrical Core Drilling Machine mainly used for perforation work in natural stone mine, to drill the wire hole in horizontal direction for introducing diamond wire, with advantage of easy operation, high accuracy with small deviation and easy converge, low costs.

Main Technical Parameters:

Model	LQ-SZ-15KW
Main Motor Power	15KWS
Diameter of Drilling	∅76
Drill Speed	2-8M/H
Extension Distance	1.5M
Drill Direction	Horizontal
